

# **ADVANCED DIPLOMA IN CONSTRUCTION AND THE BUILT ENVIRONMENT**

Level: 3  
BOARD: EDEXCEL  
LENGTH OF COURSE: – 2 YEARS

## **What will I learn?**

The Advanced Diploma offers a unique blend of theoretical study and practical learning and allows students to learn in a work-related setting – both real and simulated. Students gain an insight into the large and vibrant construction and built environment sectors and helps them develop their thinking, questioning and creative and communication skills.

## **How will I learn?**

The principle learning is compulsory and consists of seven topics that teach students the main principles and practices for this sector. The topics are organised around three learning themes:

- Design the built environment
- Create the built environment
- Value and use the built environment

## **Where might it lead?**

The Advanced Diploma is a great foundation for students choosing to continue to further and higher education. You can take up Advanced Apprenticeship, or do a foundation degree in subjects such as construction design and management, quantity surveying and civil engineering.

The Diploma could also lead to a wide range of careers including construction management, building services engineering, housing practice, quantity surveyor or architecture.

## **What are the entry requirements?**

Level 2 threshold (5 A\* - C GCSE passes or equivalent). Candidates should have at least Grade B GCSE in English Language

**PLEASE NOTE THAT THIS COURSE RUNS IN PARTNERSHIP WITH CANTERBURY COLLEGE. THEREFORE STUDENTS WILL BE EXPECTED TO TRAVEL TO BOTH SITES FOR STUDY. WORK EXPERIENCE WILL BE INCLUDED WITHIN THE PROGRAMME.**
